Founded in 1919, the Los Angeles Philharmonic Association presents, and promotes the performing arts in its varied forms at the highest level of excellence to a diverse and large audience, at Walt Disney Concert Hall, the Hollywood Bowl, and The Ford.

Position Summary:

The Digital Asset Specialist performs duties that require working knowledge of archives and digital asset management principles to ingest, organize, describe, retrieve, and disseminate born-digital and digitized historical materials in the Los Angeles Philharmonic's collections. The Digital Asset Specialist reports to the Director of Archives and Hollywood Bowl Museum.

Position Elements:

- Perform file analysis, create inventories, form collections, and create metadata for materials in the Digital Asset Management System (DAMS).
- Identify and evaluate destinations in the DAMS for a wide variety of historical assets under the care of the Los Angeles Philharmonic.
- Assist in managing high-volume asset ingest projects, and perform detail-oriented inventory, staging, mapping, tagging, and quality control of asset metadata.
- Ensure database of record accuracy by conducting performance history research and other research as needed.
- Maintain and suggest revisions for best-practice documentation, naming conventions, metadata models, and taxonomies.
- Support ease of system access for internal and external DAMS users by offering feedback and solutions for streamlining procedures to improve user experience.
- Assist with training new users and create training documents and quick guides.
- Perform quality assurance tests for new system enhancements and upgrades.

Position Requirements:

- At least one academic year of completed study in a Master of Library and Information Science (MLIS) degree program or M.A. with concentration in Archival Studies, Digital Curation, Data Science, or equivalent experience.
- Background in musicology preferred, including music literature and history.
- At least one year of relevant cataloging or data entry experience, such as creating and updating information in a digital asset management system, digitizing, or applying metadata to digital objects.
- Ability to synthesize and analyze large sets of data.
- Highly proficient with MS Office suite, especially Excel, Word, and PowerPoint.
- Ability to plan, organize, and execute multiple projects and activities with a high degree of initiative and independence, and communicate progress via collaborative tools like Slack, Google Sheets, or SharePoint.
- Advanced research proficiency with demonstrated accuracy and attention to detail.
- Excellent written, verbal, and interpersonal communication skills.
- Video editing experience or audio/visual preservation interests.

- Dedication and commitment to engage in and promote diversity, equity, and inclusion within the staff, vendors, and within interactions with the surrounding community is a must
- Secondary language fluency is a plus
